

## During the rehearsal

- please ventilate regularly
- don't use fans
- for wind instruments: condensation and saliva can be potentially infectious. Therefore please
  - wipe out instruments regularly
  - collect condensation water in a responsible and controlled manner, e.g. do not remove water by blowing into the flaps, instead soak it up with cigarette paper (immediate disposal in the waste garbage cans).
  - use disposable underlays for brass sample areas
  - wipe up saliva and condensed water
  - then wash and disinfect hands.
- do not exchange instruments, mouthpieces and accessories (e.g. mallets)
- use own pens
